WEATHER KING®

# Air Conditioners

## WA13

### 13 SEER Air Conditioners

The WeatherKing® Residential Air Conditioner Line is built to perform both efficiently and quietly, delivering home comfort you can count on.

- **Durable Construction**
  The WA13 is constructed with a sturdy louvered steel cabinet to protect the condensing coil fins from yard hazards, weather and corrosion, so you can be confident in the way it performs.
- **Quiet Operation**
  Several features contribute to quiet operation and better overall performance.
  The motor mount/grille combination protects the fan motor from the elements and also reduces sound and vibration. The discharge pattern of the top grille provides minimum air restriction, resulting in quiet fan operation.
  The WA13 also features a one-piece drawn and painted base pan. This pan elevates the coil off the pad helping minimize corrosion while also reducing sound.
- **Efficient Performance**
  The air conditioner uses an innovative wrap-around outdoor coil which allows improved airflow and heat transfer and reduces energy consumption.

**Limited Warranty Information:***
Parts - Five (5) Years

**Available Sizes:**
**1.5 to 5 tons**

**Cooling Efficiency:**
**13 SEER / up to 11 EER**
