FIGURE 1
MODEL NUMBER EXPLANATION

*All replacement coils for HM and AU air handler applications will be HU.

GENERAL

RCSN- is a replacement only uncased coil. RCSN- replacement coils are used only in (-)HPN R-410A air handlers.

For horizontal applications, a horizontal drip shield must be installed to catch excess condensate drainage. RCSN replacement coil is shipped without a horizontal drip shield. For a horizontal adapter kit, refer to Table 1 for correct kit matchups.

⚠WARNING

The drain pan that comes with the RCSN- Uncased Air Handler Coil is not built with a high-heat resistant material. Do NOT use these coils with gas and oil fossil fuel furnaces, or any other high-heat device. Failure to obey this warning could result in serious equipment damage, personal injury or death.
