Limited Warranty – Parts

SCOPE of WARRANTY and EQUIPMENT COVERED: The products covered by this Limited Warranty or specified on the reverse side ("Covered Equipment"). RHEEM SALES COMPANY, INC. (Manufacturer of Rheem, Ruud and WeatherKing products) warrants the Covered Equipment to be free from defects in materials and workmanship, and will repair or replace, at its option, ANY PART of Covered Equipment installed in residential* (not commercial) applications which fails in normal use and service within the Applicable Warranty Periods specified on the reverse side in accordance with the terms, including, but not limited to, the specific exclusions set forth below, of this Limited Warranty and subject to the Manufacturer's right to inspect and validate the warranty claim as set forth below. If an exact replacement is not available, an equivalent unit or credit will be provided. The replacement will be warranted for only the unexpired portion of the original Applicable Warranty Period. If government regulations, industry certification or similar standards require the replacement unit to have features not found in the defective unit, you will be charged for the difference for those required features. If you pay the difference, you will also receive a completely new Limited Warranty for the new replacement unit. The Manufacturer does not authorize or warranty any online/internet sale of equipment through auction websites or any other method of online sales direct to the consumer, nor the sale of equipment by liquidators.

THE EFFECTIVE DATE OF WARRANTY COVERAGE IS DETERMINED AS FOLLOWS: (a) If the original installation date can be verified by the installer's invoice and the original installation date is within eighteen (18) months after the product's manufacture date (as verified by the product's serial number), then the Effective Date of warranty coverage is the original installation date as shown on the installer's invoice. **For residential new construction installations, the final occupancy permit, or proof of purchase from the builder can be substituted for the installer's invoice.** If the original installation date, as verified by the installer's invoice, is later than eighteen (18) months after the product's manufacturer date, then the Effective Date of warranty coverage is the product's manufacture date plus eighteen (18) months.

(b) If the original installation date cannot be verified by the installer's invoice, **or proof of purchase in residential new construction applications,** then the Effective Date of warranty coverage is the product's manufacture date plus ninety (90) days.

The Applicable Warranty Periods for the Manufacturer's various models and parts are specified on the reverse side.
